

## **2010 China International Aviation & Aerospace Forum**

The “2010 China International Aviation & Aerospace Forum”, hosted by the Ministry of Industry and Information Technology of China, will open on 15<sup>th</sup> Nov., 2010 at Zhuhai, China. As the main part of Airshow China, the forum has been held successfully for four times, which is generally recognized as a professional forum of international aviation and aerospace with high standard and level. At the moment, the preparatory works for the forum have begun.

As the strategic industry of China, the government of China attaches vital importance to the development of the aviation and aerospace industry, and makes a series of reforms to it in recent years. With the new trend of reforms and the new problems associated with them, the aviation and aerospace industry has to make thorough researches and discussions. With the theme as “The Development Thought of The Aviation & Aerospace Industry in the Next Five Years”, the forum will invite heads of associated departments of foreign and domestic governments, and leaders of the international aviation and aerospace industry. The forum will discuss the following topics: expatiate the development thought of the aviation and aerospace industry in the next five years from the point of view of the governments; expatiate the development strategy of the aviation and aerospace industry from the point of view of the

corporations, and invite overseas large corporations to participate in the discussion, so as to strengthen the strategic cooperation; discuss the demand of the aviation and aerospace industry and its resolution from the point of view of the market of aviation and aerospace, and seek potential business opportunities.

The forum is organized by the News Center of China National Space Administration 、 Zhuhai Airshow Co.Ltd and China Aviation Media Group. The international leading aviation and aerospace corporations will be cordially invited to participate in it and discuss the development of the aviation and aerospace industry together.
